Creative Director: Chelsea Yuan
Designer/Developer: Terry Rim

Mock-up Review Meeting Notes

Pages

- Decrease size of headers to show content below fold

Buttons

- Change the ellipse button shape to a rounded rectangle
  - Balances with the roundness of ellipse in header but activates the heuristic of the clickability of a button
- Change button font to Helvetica - focus on a more modern look

Cards

- Change cards to have rectangular rounded corners to reflect style of buttons

Timeline

- Decide on the clickability of the timeline
  - Clickability is not necessary, looks fine the way it is now, just make sure the graphics are consistent
- Treat production and timeline pages similarly for the cohesiveness of design

Type

- Decrease line height of body text & make body text consistent between pages

Navigation

- Implement new hamburger nav -> use logo as home page, make sure it is accessible from every page
